

Seymour | COMMUNITY SCHOOLS

Website: www.scsc.k12.in.us

Seymour Community Schools provides an indicator for daily session structure on our website. In the top right corner, look for a stop light. The color indicates the format for the day.

This school year has brought additional formats to consider, for example: Delay, Closed, Hybrid, Virtual, eLearning. We thought it would be helpful to provide your family with a chart to define what each one means. Please review the following:

School Status Display

Display	Status Description
 School is Open	School is open with a normal schedule.
 School is Delayed	School has been delayed for 2 hours.
 School is Closed	School is not in session.
 eLearning	Students will follow online instruction. There is not an expectation to participate in live instructional sessions.
 Hybrid Schedule	Grades K-5 will be OPEN with normal schedule and grades 6-12 will be in VIRTUAL format with eLearning on Wednesdays
 Virtual Schedule	Students will follow online instruction and be expected to participate in live instruction at designated times.

Weather can also impact school schedules. In the past, school closed. This year, should weather cause concern for students to be at school, we will call an eLearning Day K-12. If called, students remain home and lessons are posted online. There will be no make-up day.
